

Subject: Request for the use of recyclable packaging instead of mixed materials in packaging

Hello,

I am not sure where to send this: if this is not the most appropriate address, please forward it to a more applicable contact.

I recently purchased, and am disappointed that I am unable to recycle the container because it is made from mixed materials and is therefore not accepted at recycling depots. I take the three Rs of sustainability – Reduce, Re-use, Recycle – seriously. Please consider adjusting the way your product is packaged so that it can be recycled.

Thank you,
