

Subject: Request for soup cartons to be recycled

Hello,

I am not sure where to send this: if this is not the most appropriate address, please forward it to a more applicable contact.

I recently purchased soup with the brand name....., and am disappointed that I am unable to recycle the container. Dairy and milk substitutes are sold in the same kind of carton, and those industries pay for a stewardship program for those containers to be recycled in B.C.

Polycoat is valuable as a recyclable material, and I am frustrated by the wastage. I take the three Rs of sustainability – Reduce, Re-use, Recycle – seriously. Please consider adjusting your position on this issue.

Thank you,
